

## I AM GIS

I'm expected to collect more field data in less time. I'd consider trying something new, but it has to be easy to learn and compatible with my current equipment.

## I AM FORESTRY

If there is new technology that will make my job easier and more efficient, then I'm all about it. I learn best when I have hands-on experience with new tools.

We hear you. Please join us for a Lunch & Learn Tech Session near you.

**Who:** Laser Technology, Inc., and Precision Laser & Instrument, Inc.

**What:** How-to tips and outdoor hands-on experience

**When:** October 29, 2013, from 10:30 a.m. to 1 p.m.

**Where:** Cabela's  
1650 Gemini Place, Columbus, OH 43240  
GPS Coordinates: 40.14917°N, -82.973296°W

- Why:**
- Learn the latest in laser measurement and mobile mapping technology and how to integrate with software solutions
  - Earn credits: 3 CFE credits through SAF (must sign SAF attendance sheet to qualify)
  - Free lunch with chances to win door prizes

**How:** Register by emailing your name, organization, phone number and email address to Jon Beemer at [jbeemer@lasertech.com](mailto:jbeemer@lasertech.com)

Save time and money by learning how to map with GPS laser offsets.

Eliminate all typical frustrations when measuring tree diameters and BAF.

This tech session will fill up fast. If you have questions or prefer to register by phone, please contact Jon Beemer at Laser Technology, Inc., 303.649.1000
